

Appl. No. 10/802,268
Reply to Office Action of June 30, 2005

Attorney Docket No. 2003-0710 / 24061.121
Customer No. 42717

Amendments To The Specification

Please replace paragraph [0012] with the following amended paragraph:

[0012] Each of the entities 202, 204 may include one or more computing devices such as personal computers, personal digital assistants, pagers, cellular telephones, and the like. For the sake of example, the internal entity 202 is expanded to show a central processing unit (CPU) 208, a memory unit 210, an input/output (I/O) device 212, and an external interface 214. The external interface may be, for example, a modem, a wireless transceiver, and/or one or more network interface cards (NICs). The components 208-214 are interconnected by a bus system 216. It is understood that the internal entity 202 may be differently configured and that each of the listed components may actually represent several different components. For example, the CPU 208 may actually represent a multi-processor or a distributed processing system; the memory unit 224 210 may include different levels of cache memory, main memory, hard disks, and remote storage locations; and the I/O device 212 may include monitors, keyboards, and the like.
